programme

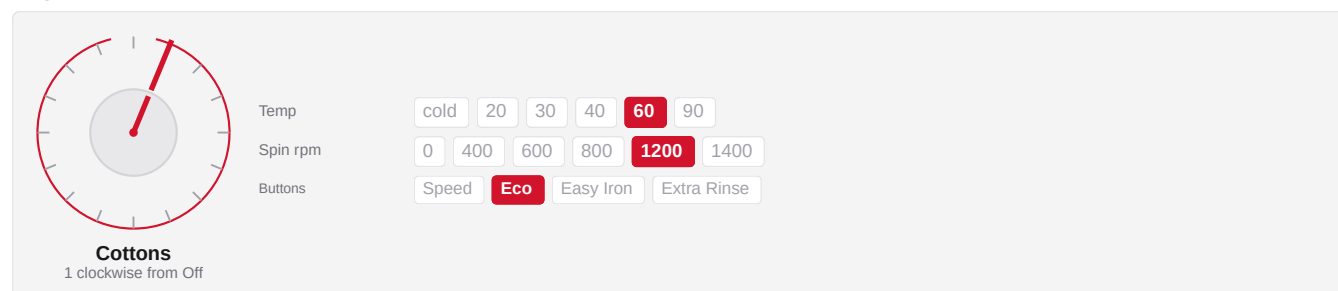

The dials are drawn as they sit on the machine: twelve o'clock is Off, and the red pointer is where to turn it. Chips show every value the display steps through, filled in on the one you want.

NOTES

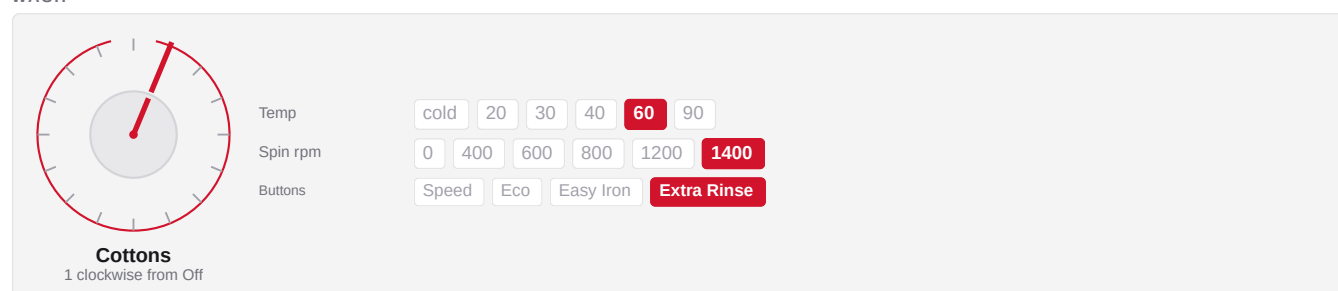

White: Wash whites on their own. One stray coloured sock is all it takes.

DETERGENT

Universal powder, full dose. Go lighter rather than heavier: excess detergent stiffens terry.

WASH TOGETHER WITH
nothing else — wash alone

DRYING

Tumble dry medium — the tumbling is what fluffs the pile back up.

NOTES

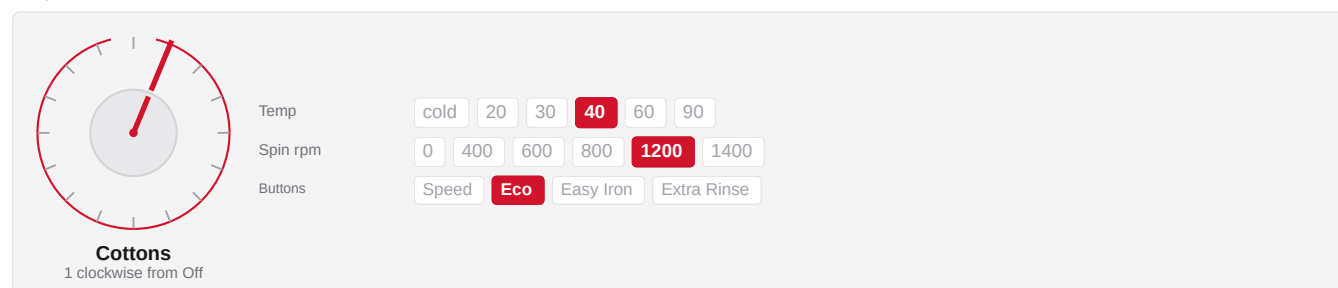

Never fabric softener: it coats the loops in silicone and the towel stops absorbing. White vinegar in the softener drawer once a month softens instead.

Denim: Inside out, zips and buttons closed. Wash them far less often than you think.

WASH

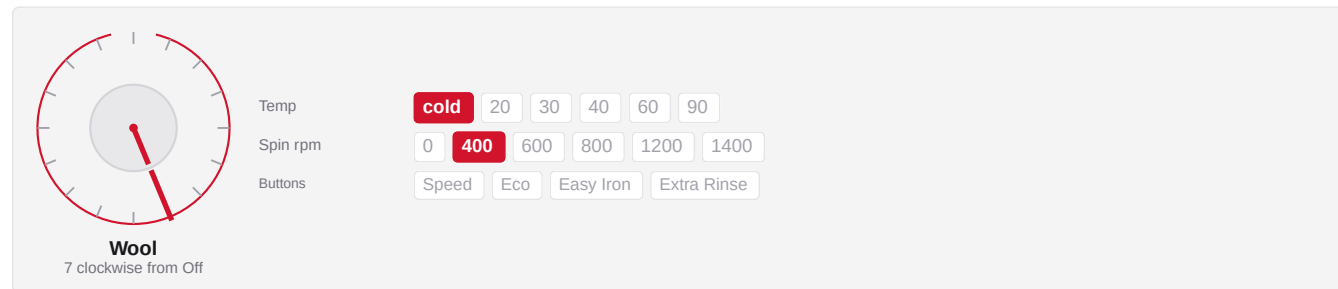

Unwashed denim is meant to go months before its first wash. Gentler than the machine: a 45-minute cold soak in the bath, inside out, no agitation, no wringing — then roll in a towel to press the water out.

WASH

DETERGENT
A small amount of mild detergent — a wool detergent is ideal. No bleach.

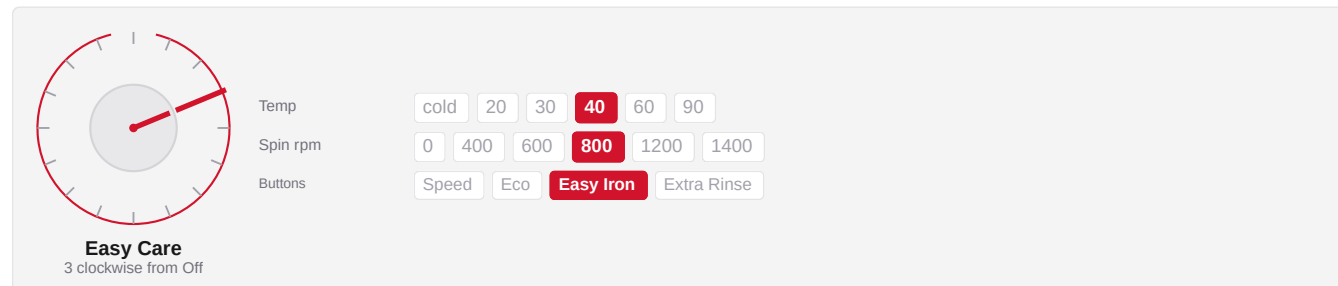

WASH TOGETHER WITH
nothing else — wash alone

Air dry only, somewhere with moving air: outside, by a window, or in front of a fan. Never the dryer and never a radiator — heat warps the sole and shrinks the wool upper.

Pull the insoles and laces out first and wash those by hand. The shoes go in a mesh delicates bag or a pillowcase, on their own — a loose trainer batters the drum and everything in it.

~1:30

WASH

Mild liquid detergent, no bleach — bleach yellows linen and breaks the fibre down over time

WASH TOGETHER WITH
nothing else — wash alone

Line dry, or tumble low and pull out a little damp — bone dry locks creases in.

New linen sheds a little dye/lint for the first few washes — wash alone until it rinses clear, then fine with other 40 °C loads.
